

Circadian Sky™

ADVANCED DAYLIGHT
SIMULATION SYSTEM

Exceptional Color Accuracy

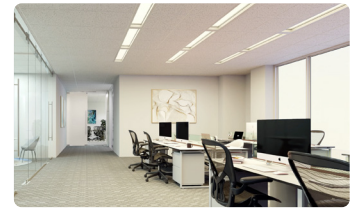

CRI 91-97 across all CCTs ensures consistent and accurate color fidelity.

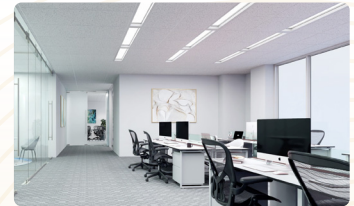

Healthy Buildings Start Here

Industry-leading Melanopic Ratio for productivity, health and sleep.

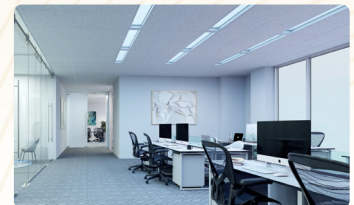

Experience the Full Range of Daylight

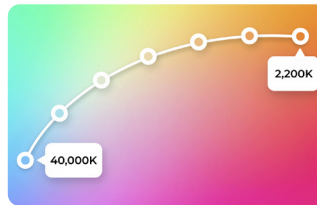

2,700K - Warm Morning Light

6,500K - Midday with Clouds

40,000K - Clear Blue Sky

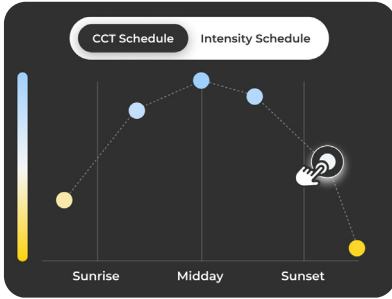

Unmatched CCT Range

Experience true daylight, spanning warm sunrise (2,200k) to deep blue sky (40,000k)—capturing the full, natural spectrum.

True Daylight Indoors.

Circadian Sky combines advanced LED technology with innovative optical design to create the most realistic artificial window system available today.

INTELLIGENT CONTROLS

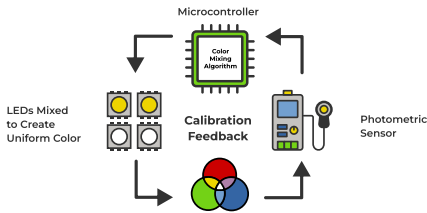

- Wireless Synchronization Across Zones
- Schedule-Based Automatic Transitions
- Automatic Daylight Simulation
- Simple Integration With Building Controls
- Use Stand-Alone Or Easily Integrate With Building Systems

Flexible Control: Casambi, 0-IOV, DMX, DALI...

DUAL REFLECTIONS

Circadian Sky uses dual reflections to create realistic depth, making spaces feel open and naturally lit.

ADVANCED TECHNOLOGY

- 4-Chip System For Precise, Natural Light
- Industry-Leading Color Consistency
- Ultra-Smooth Dimming To <1%
- Less Than 1 Macadam Ellipse Step
- Natural Light Curve Transitions
- Ultra-Low Duv: ± 0.002
- No Unnatural Color Tints

Versatile Sizing Options

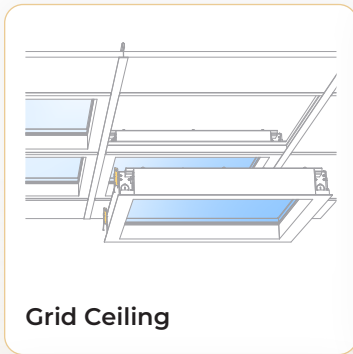

- 1x2', 1x4', 2x2', 2x4', 18x48"
- All models are 3.3" deep.
- Custom sizes are also offered.

HEALTHCARE OPTIMIZED

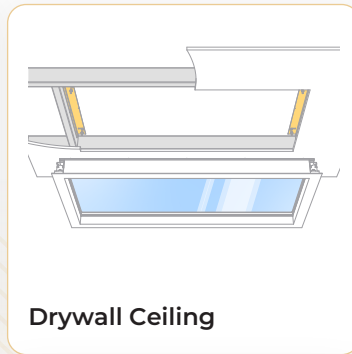

- Supports Evidence-Based Circadian Lighting Standards
- Flicker-Free Operation For Eye Comfort
- High Melanopic Lux Levels
- Regulates Circadian Rhythms
- Improves Alertness And Cognitive Function
- 11+ WELL Feature Contributions
- Anti-Ligature Options for Behavioral Health

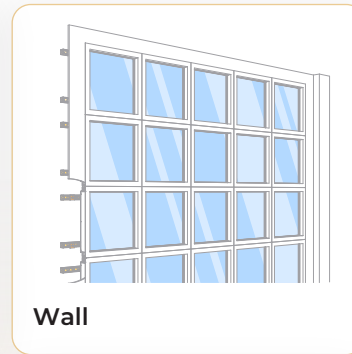

Installation Flexibility
